laboratory test results with a letter from the vet with the goat's names/tags/identification methods and where applicable a copy of the relevant accreditation certificate to be provided to the stewards on request. (2) animals from accredited herds are to follow scheme requirements. If only accredited for one (CAE or JD) then testing as per (vi) above is required for the non-accredited (CAE or JD) herd. (3) exhibits are not permitted to make contact with untested/non-accredited animals - unloading/loading; walkways; pens; yards; feed/water receptacles; equipment; transport; show ring; etc at any time, or testing is void. Contact is defined as being within 2m unless separated by a solid barrier. (4) animals: goats; sheep; deer; cattle; camel; bison; llama; alpaca. (5) goats that have been in contact with untested/infected animals (4), their manure or unpasteurised goat's milk from non-accredited sources must be held in isolation and be blood tested twice at an interval of 6-12 months or as per an approved property disease management plan.
